

How to Update Featured Designs on the Homepage

A quick and easy guide for store managers to spotlight monthly themes, holiday shirts, and popular products.

1. What Is the Featured Designs Section?

The **Featured Designs** area is the main showcase at the top of the Snarky Humans homepage. It gives shoppers an immediate look at what is trending, new, or perfect for upcoming holidays (such as Labor Day, Grandparents Day, Halloween, or Christmas). Using the **Featured Design Scheduler**, you can choose which shirts appear on the homepage for any month with just a few clicks.

2. 5 Easy Steps to Update Your Featured Designs

Step	What to Do	Details & Tips
Step 1	Log into the Admin Dashboard	Go to your admin link (e.g. /admin/dashboard) and enter your admin email and password.
Step 2	Open the Featured Scheduler	Click on the Featured Design Scheduler tab in the menu.
Step 3	Select the Month	Use the dropdown to pick the month you want to set up (for example: <i>August</i> for Labor Day, <i>October</i> for Halloween). You can plan upcoming months in advance!
Step 4	Check or Edit Your Headline	Review the headline and subheadline (e.g. ' <i>HOLIDAYS & ATTITUDE</i> '). This is the catchy title customers see right above the shirts.
Step 5	Select Your Designs & Save	Simply click the checkbox on the designs you want to feature (we recommend 4 to 8 designs). When you're ready, click the green Save Schedule button at the bottom.

Pro Tip: You can verify your changes immediately! Just open the homepage (snarkyhumans.com) in a new browser tab to see your new featured shirts live.

3. Best Merchandising Practices

Topic	Recommendation
How many designs should I pick?	Between 4 and 8 designs is the sweet spot. This looks great on both mobile phones and desktop computers without overwhelming the customer.
Match the season or holiday	Update your schedule at the start of each month to feature upcoming holidays (e.g., patriotic themes in July, back-to-work humor in August/September, spooky snark in October, gift shirts in December).
Mix humor styles	Include a blend of your top-selling snarky quotes, relatable daily humor, and holiday-specific gifts to appeal to different shoppers.

4. Built-in Safety Nets (No Tech Hassle)

You never have to worry about the homepage looking empty or broken:

Automatic Fallback: If a new month starts and you haven't selected designs yet, the website will automatically display active seasonal designs or popular bestsellers.
Filtered Catalog: Out-of-season drafts or unreleased designs are automatically filtered out, so you will only ever see clean, ready-to-sell products.
Instant Publishing: No website rebuilding or developer assistance is required—clicking Save Schedule publishes your updates instantly.

5. Frequently Asked Questions (FAQ)

Question	Answer
I saved my changes, but I don't see them on the homepage?	Your browser may be holding onto a saved page. Simply do a quick hard refresh (press Ctrl + F5 on Windows or Cmd + Shift + R on Mac).
Can I schedule future months in advance?	Yes! You can select any upcoming month in the dropdown, pick the designs, and save. When that calendar month begins, the website will switch automatically.
Can I change the featured designs anytime?	Yes, you can edit or swap out designs as often as you want—daily, weekly, or monthly.
